

Genetic Information Agency

Markers Varietal Identification
Confidentiality **SSR** Banks **Genotyping**
Plant improvement **Sequencing**
Characterisation **SNP** Rentability **R&D**
Selection **Bioinformatics**
Genetics **Data bases**
Accompanying **Cheap**

ADNid is a French innovative company specialized in the production of high quality genomic data. Thanks to its different platforms, the company located in Montpellier offers a large panel of tailored services and diagnostics .

TAILORED SERVICES

- ✓ **DNA/RNA extraction (plant DNA specialist)**
- ✓ **Genotyping services**
 - SSR/SNP Genotyping, Tailored & on-demand
 - SNP screening & discovery (SANGER, capture, RNASeq, Whole Genome)
 - DNA Cheap (all densities)
- ✓ **Bioinformatics tools & analysis**
 - NGS data analysis
 - SSR/SNP data bases building
 - Comparative genomics & gene function prediction
 - Markers linked to agronomic traits discovery (BSA-by-NGS)
- ✓ **Diagnostics for the production**
 - Legitimacy of seed lots
 - Variety molecular identification

For your projects...

...we find solutions
